Anna Vallgårda
Associate Professor
Interaction Design
People and Computational Things
Postadresse: IxD lab (5A58)
E-mail: akav@itu.dk
Telefon: +45 7218 5096
Hjemmeside: http://akav.dk/

Publikationer

Craft as a matter of care to inspire the design of computational things
Tsaknaki, V. & Vallgårda, A., 2023, Nordes 2023: This Space Intentionally Left Blank, 12-14 June, Linköping University, Norrköping, Sweden. Design Research Society

PregnancyCubes: A design process to cultivate tensions

Designing with Emerging Science: Developing an Alternative Frame for Self-Tracking
Jenkins, T., Boer, L., Homewood, S., Almeida, T. & Vallgårda, A., 2 dec. 2020, 32nd Australian Conference on Human-Computer Interaction. Association for Computing Machinery

Gut-Tracking as Cultivation

Putting Phenomenological Theories to Work in the Design of Self-Tracking Technologies

Removal as a Method: A Fourth Wave HCI Approach to Understanding the Experience of Self-Tracking

Designers in White Coats: Deploying Ovum, a Fertility Tracking Device

Careful Devices: A design manifesto for humane domestic healthcare technology

Doing Things with Research through Design: With What, with Whom, and Towards What Ends?

A Design Perspective on Future Healthcare Services for the Home Environment

Time, Temporality, and Slowness: Future Directions for Design Research
Experimental Engineering: Articulating and Valuing Design Experimentation

Giving Form to a Hedonic Haptics Player

Provoking Performing Objects: Expanding the Design Space for Soft Robotics

The Hedonic Haptics Player: A Wearable Device to Experience Vibrotactile Compositions

The Things of Design Research: Diversity in Objects and Outcomes

Embodied Design Ideation Methods: Analysing the Power of Estrangement

Material Programming

The Hedonic Haptic Player

Material Programming: a Design Practice for Computational Composites

Things Fall Apart: Unpacking the Temporalities of Impermanence for HCI
Tsaknaki, V., Cohn, M., Boer, L., Fernaeus, Y. & Vallgårda, A., 23 okt. 2016, Proceedings of the 9th Nordic Conference on Human-Computer Interaction (NordiCHI ’16). New York, USA: Association for Computing Machinery, 3 s. 141

FeltRadio: Sensing and Making Sense of Wireless Traffic

Material Programming: A New Interaction Design Practice

Attending to Objects as Outcomes of Design Research
**A basic form-language for shape-changing interfaces**

**Temporal form in interaction design**

**Interaction Design as a Bricolage Practice**

**Un-Crafting: Exploring Tangible Practices for Deconstruction in Interactive System Design**

**Ajna: negotiating forms in the making of a musical cabinet**

**Giving form to computational things: developing a practice of interaction design**

**The Dress Room: responsive spaces and embodied interaction**

**Materiality Matters-Experience Materials**

**IxD Lab, IT University of Copenhagen**
Vallgårda, A., 2013, I: interactions. 20, 4, s. 84–87

"**Material interactions**: from atoms & bits to entangled practices"

**A Material Focus: Exploring Properties of Computational Composites**

**Computational Composites: Understanding the Materiality of Computational Technology**

**Developing Knowledge for Design by Operationalizing Materials**

**Material focus: Exploring properties of computational composites**

**Symbiots: Conceptual Interventions Into Urban Energy Systems**
PLANKS: a computational composite

Computational composites
