Publications

**Diamonds are not forever: Liveness in reactive programming with guarded recursion**

**Calculating Correct Compilers II: Return of the Register Machines**

**Simply RaTT: A Fitch-style Modal Calculus for Reactive Programming**

**Convergence in infinitary term graph rewriting systems is simple**

**Strict Ideal Completions of the Lambda Calculus**

**What makes guarded types tick?**

**Compiling a 50-year journey**

**Böhm Reduction in Infinitary Term Graph Rewriting Systems**

**The Clocks Are Ticking: No More Delays! Reduction Semantics for Type Theory with Guarded Recursion**

**Generalising tree traversals and tree transformations to DAGs: Exploiting sharing without the pain**

**Cutting Out Continuations**

**Calculating correct compilers**
Certified Symbolic Management of Financial Multi-party Contracts

Type Families with Class, Type Classes with Family

Calculating Certified Compilers for Non-deterministic Languages

Generalising Tree Traversals to DAGs: Exploiting Sharing without the Pain

Domain-Specific Languages for Enterprise Systems

Towards Certified Management of Financial Contracts

Composing and Decomposing Data Types: A Closed Type Families Implementation of Data Types à La Carte

Pick’n’Fix: Capturing Control Flow in Modular Compilers

Partial Order Infinitary Term Rewriting

Proving Correctness of Compilers Using Structured Graphs

Programming macro tree transducers

Convergence in Infinitary Term Graph Rewriting Systems is Simple (Extended Abstract)

Modes of Convergence for Term Graph Rewriting
Bahr, P., 1 Jun 2012, In: *Logical Methods in Computer Science*. 8, 2

Modular Tree Automata
**Infinitary Term Graph Rewriting is Simple, Sound and Complete**

**Parametric Compositional Data Types**

**A Functional Language for Specifying Business Reports**

**Evaluation à la Carte: Non-Strict Evaluation via Compositional Data Types**

**Compositional data types**

**Modes of Convergence for Term Graph Rewriting**

**Compositional Data Types - A Report from the Field**

**Abstract Models of Transfinite Reductions**

**Partial Order Infinitary Term Rewriting and Böhm Trees**

**Infinitary Rewriting - Theory and Applications**
Bahr, P., 1 Sep 2009, Vienna.
